World Oral Health Day logo

The World Oral Health Day logo can be used on any campaign material that promotes World Oral Health Day, as long as:

- it is not associated with any products, brands, services or companies;
- the text treatment and the logo are not modified.

Whenever possible, the full colour (blue circle, red smile and grey text) logo should be used.

When it is not possible to use the full colour logo, the single colour (all white) may be used.
